PREFACE

The *Register of the Alumnae association* which has been issued annually since 1890 has contained heretofore an alphabetic list of graduates of the college with dates and addresses, together with an incomplete list of former nongraduate students who were associate members of the alumnae association.

As the form of the register had proved somewhat unsatisfactory and a change was deemed advisable, and in view of the fact that the college had never published any list or record of its former students, the association determined to attempt in this issue not only a change of form but a complete list of all former students, both graduates and nongraduates with as much personal data as might be of general interest or historical value, together with a list of all trustees, teachers and other officers. As the college has been open 30 years the work of collecting the required information has been attended with many difficulties, especially in the brief time.

In October blanks were sent to all former living students, and every clue followed that might lead to their discovery. About 400 blanks were returned through the postoffice unclaimed. Though others were not heard from, it must be assumed that the blanks were received. In these cases the items recorded were obtained from other sources such as the *Smith college monthly*, class secretaries, class books, and even newspaper items, and are indicated by † after the address. To ensure the accuracy of dates the trustees allowed the committee to consult the college records and no effort has been spared to make the catalog correct as far as it goes.

In view of this work being continued and becoming a quinquennial publication, all corrections, additions or omissions should be reported to Miss Mary A. Mason, assistant secretary.

Owing to the large number of students it was not considered advisable to publish all the data given on the blanks, but it will be available for possible future use.

The committee recommends that a bibliography of the writings of Smith students be issued as a separate publication. It could not be included in this catalog because of incomplete reports and lack of time for verification.

There have been 5080 students at Smith college. Of these 3065 received the degrees of B.A. B.L. or B.S. and are eligible to membership in the alumnae association. Of the 2015 who have not received academic degrees those who completed a course of not less than one year in the academic department or who are graduates of the schools of music

or of art may be admitted to associate membership by vote of the executive committee.

Names have been divided into two groups:

1) Alumnae arranged by classes, each student being entered under the year in which she received her degree;

2) Students who have not received academic degrees, arranged in alphabetic order, the period of time in college being given.

Names are given in the form used while in college with later or other forms in brackets. Permanent addresses have been given wherever possible. When the last recorded address was known to be incorrect it was omitted. When no information was obtained of a student after she left college, the place from which she entered is given. At the end of each class is given the number in the class and the number dead.

In smaller type are the additional degrees, a statement of study pursued after leaving Smith, occupations other than study, followed by personal items of marriage and children. Membership in societies is included when the societies are educational in the technical sense or professional. The index includes all names which appear in the catalog except those of children.
